

# I-205: UPCOMING FIELD WORK

## LATE JANUARY – MARCH 2020

As part of the design work for the **I-205 Widening and Seismic Improvements Project**, crews are investigating soil conditions at various locations along I-205 between Stafford Road and OR 213. Work will occur over **a six- to eight-week period beginning in late January**. Work may occur during the day or at night, depending

on the location. You may hear periodic nighttime noise including the sound of drilling equipment, trucks and generators. Travelers can also expect some nighttime lane and shoulder closures on I-205. **For nighttime noise concerns, call the 24-hour noise hotline: 503-412-2379.**

Visit **[www.i205corridor.org](http://www.i205corridor.org)** to learn more about this project and view a map with drilling locations and general work hours.

If you have questions, please contact Ellen Sweeney, ODOT Community Affairs Coordinator, at (503) 731-8230 or [Ellen.Sweeney@odot.state.or.us](mailto:Ellen.Sweeney@odot.state.or.us).
